European Forest Strategy 2030m Landowners - biodiversity vs. circular economy, Imbalance between economical/social/ecological expectations, different national approaches to implementing the strategy Eur.For.Strat. 2030

ELO FFA Conference Prague, May 2022

High uncertainty (does really exist „sustainability“??) of our decisions, Landowners want to participate on the forest(ry) change, Wood industry expects change of primary products (Stora Enso contribution), Rigid rules for nature protection – change our mind, Landowners are basement for social stability of countryside, Closer to nature forestry – new EU strategy – minimal discussion with landowners (ecologists can not decide on property)
